OPPORTUNITY FOR ALL
EDREDESIGN

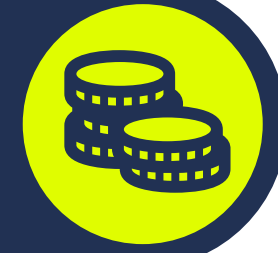

THIS IS WHAT WE BELIEVE.

*Every child deserves
the opportunity to
succeed.*

COVID-19 pulled back the curtain on **racial injustice** and **economic inequity**.

But even **before** the pandemic, we **weren't meeting** children's needs

In 2019, **10 million** children lived in **poverty**

In 2018, 4.3 million children were **uninsured**

In 2018, a child or teen was **arrested every 43 seconds**

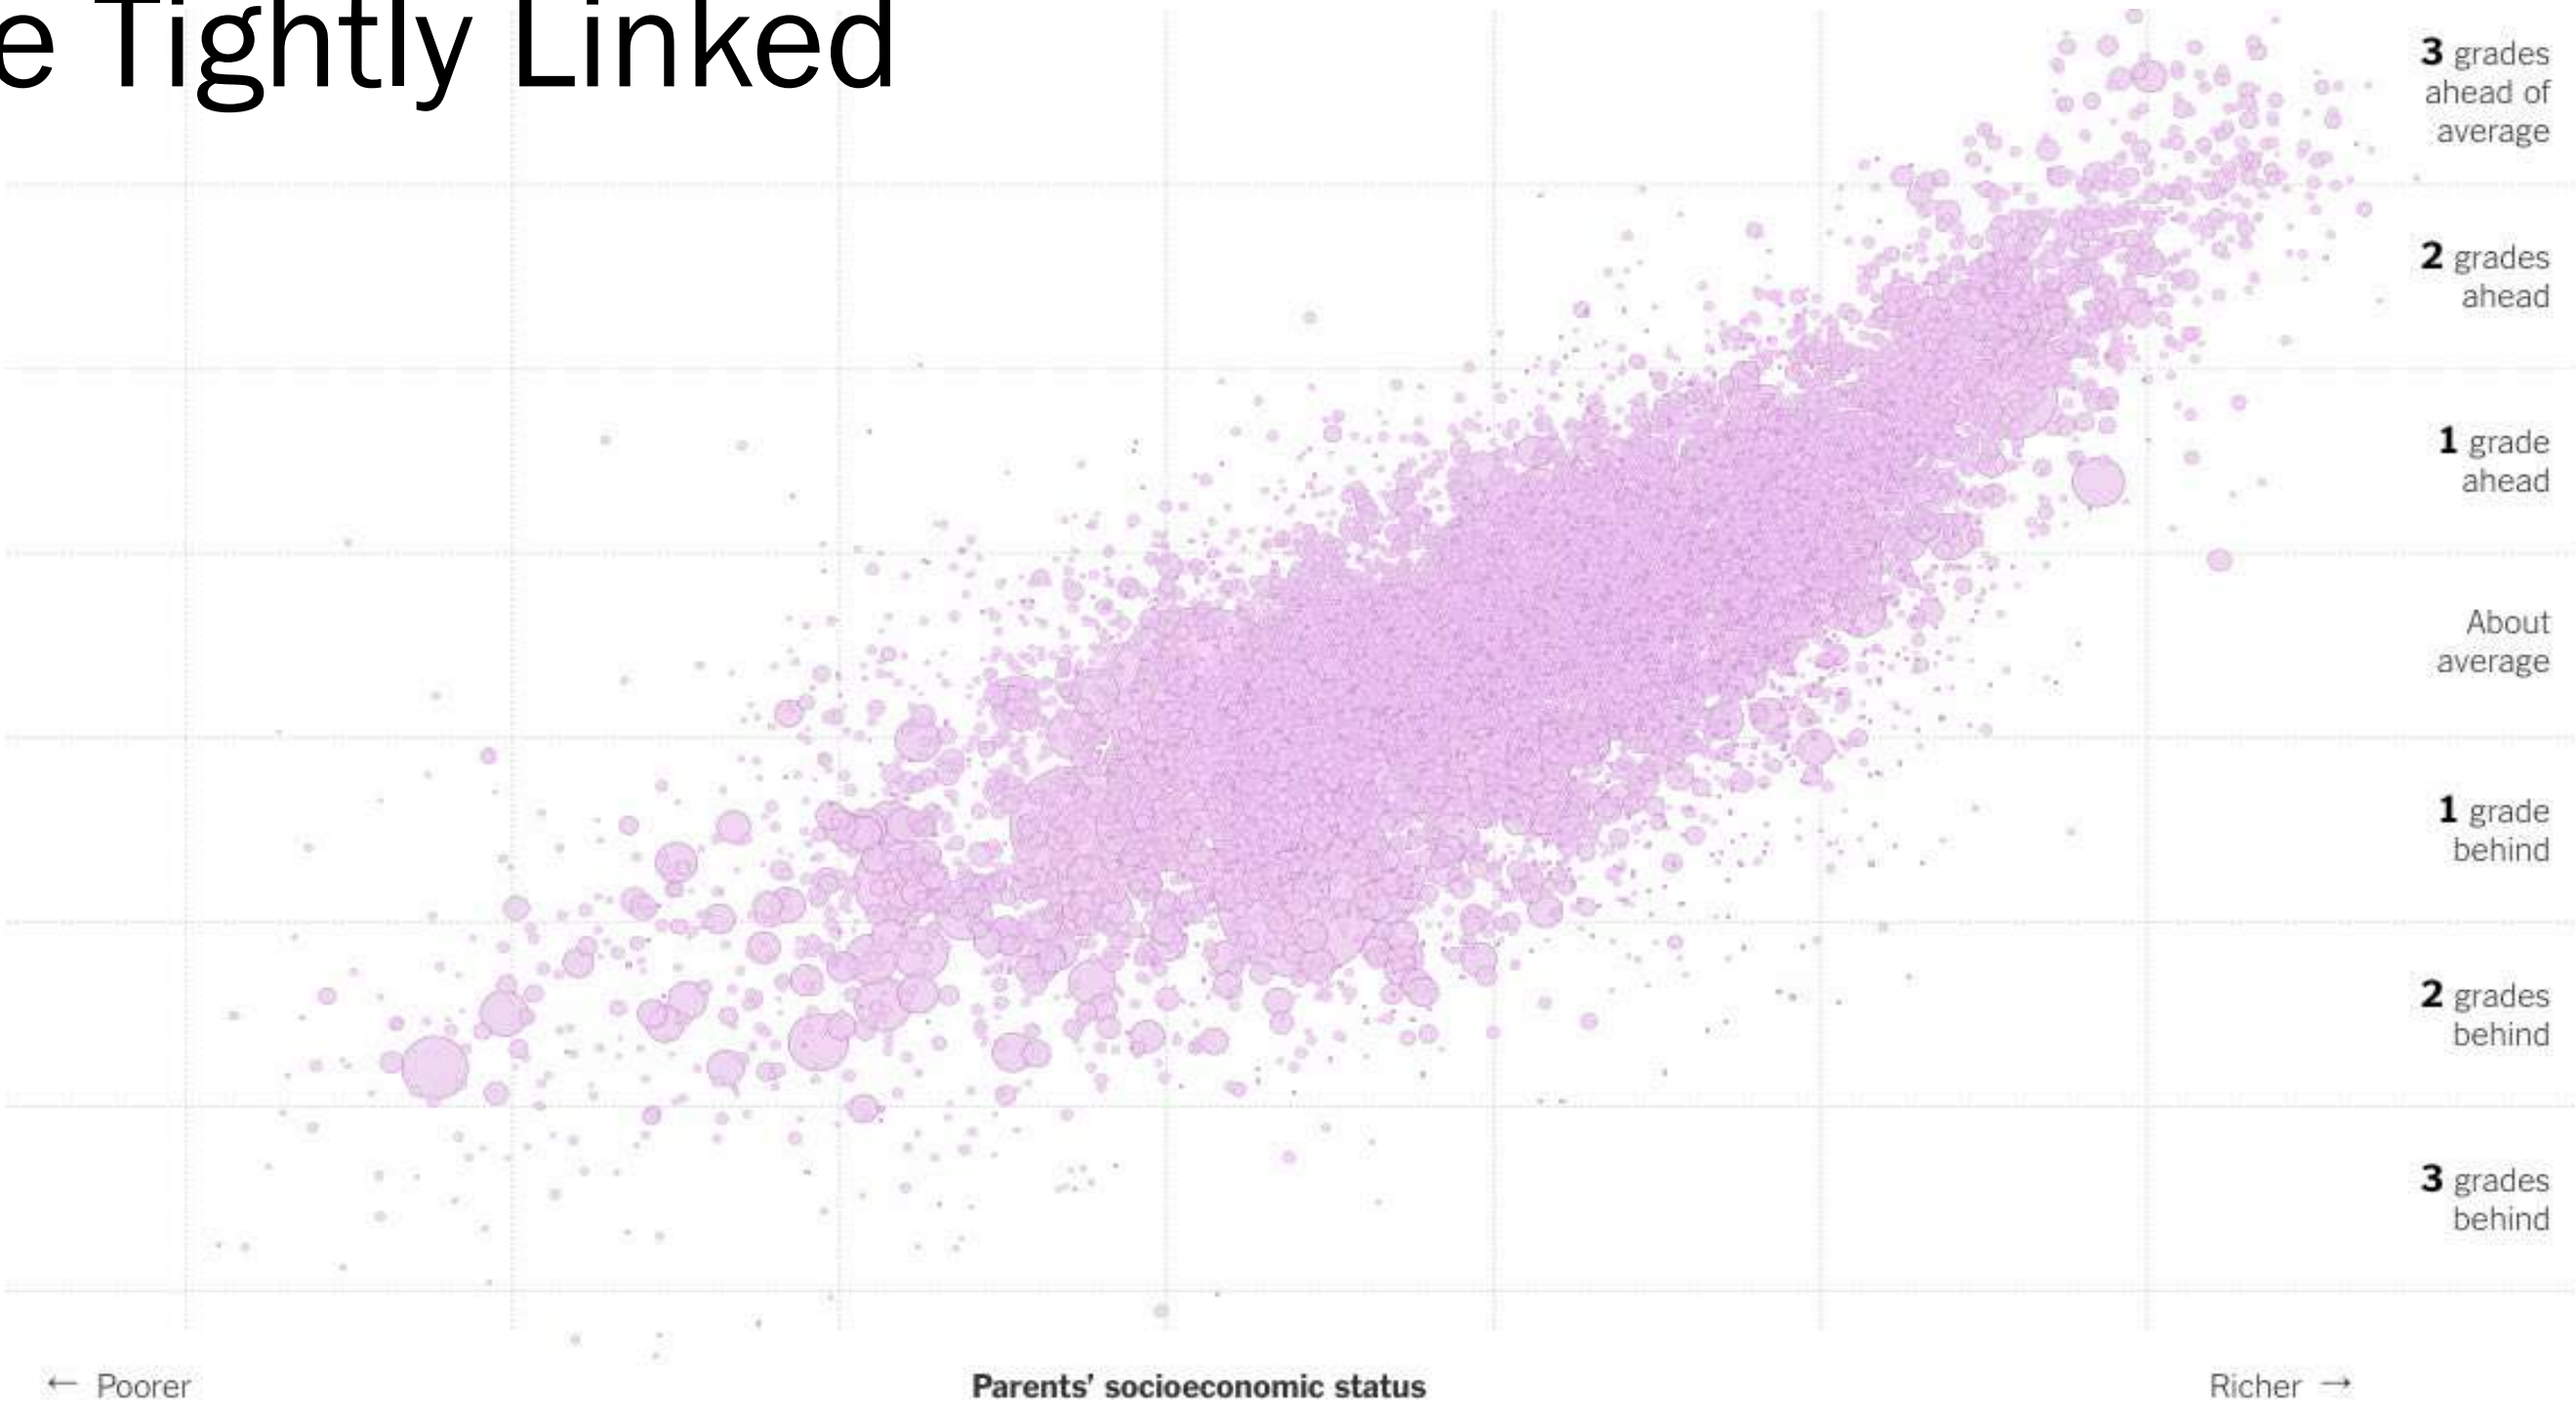

In 2017, more than 1 in 6 children lived in **food-insecure** households

In SY 2016-2017, 1.4 million public school children were **homeless**

Socioeconomic Status and Educational Achievement are Tightly Linked

Graphic from the *New York Times*, based on 2016 work done by Sean Reardon, Center for Education Policy Analysis, Stanford University.

Schools
alone can't
meet all
the needs
of children

But through **collaborative action**, a community can leverage its resources to ensure **every child** has the **opportunity to succeed**

Needed: A New Vision

A new, enhanced system of
child development and
education that is coordinated,
holistic, and personalized

Needed: A New Vision

A new system of education and child development must support each child's needs inside and outside of school in a personalized manner throughout their school years and all the way to employment.

**“Meet them
where they
are.”**

**“Give them
what they
need.”**

Personalized, place-based cradle-to-career approach

Collaborative Action

- Centers children and youth through a shared vision
- Engages key decision makers and community leaders
- Maximizes impact and progress
- Ensures more efficient and effective use of community resources
- Encourages data-driven decision making and continuous improvement
- Promotes strategic planning (short-term & long-term)
- Ensures more shared and inclusive practices and processes toward sustainable solutions

Personalizing Supports

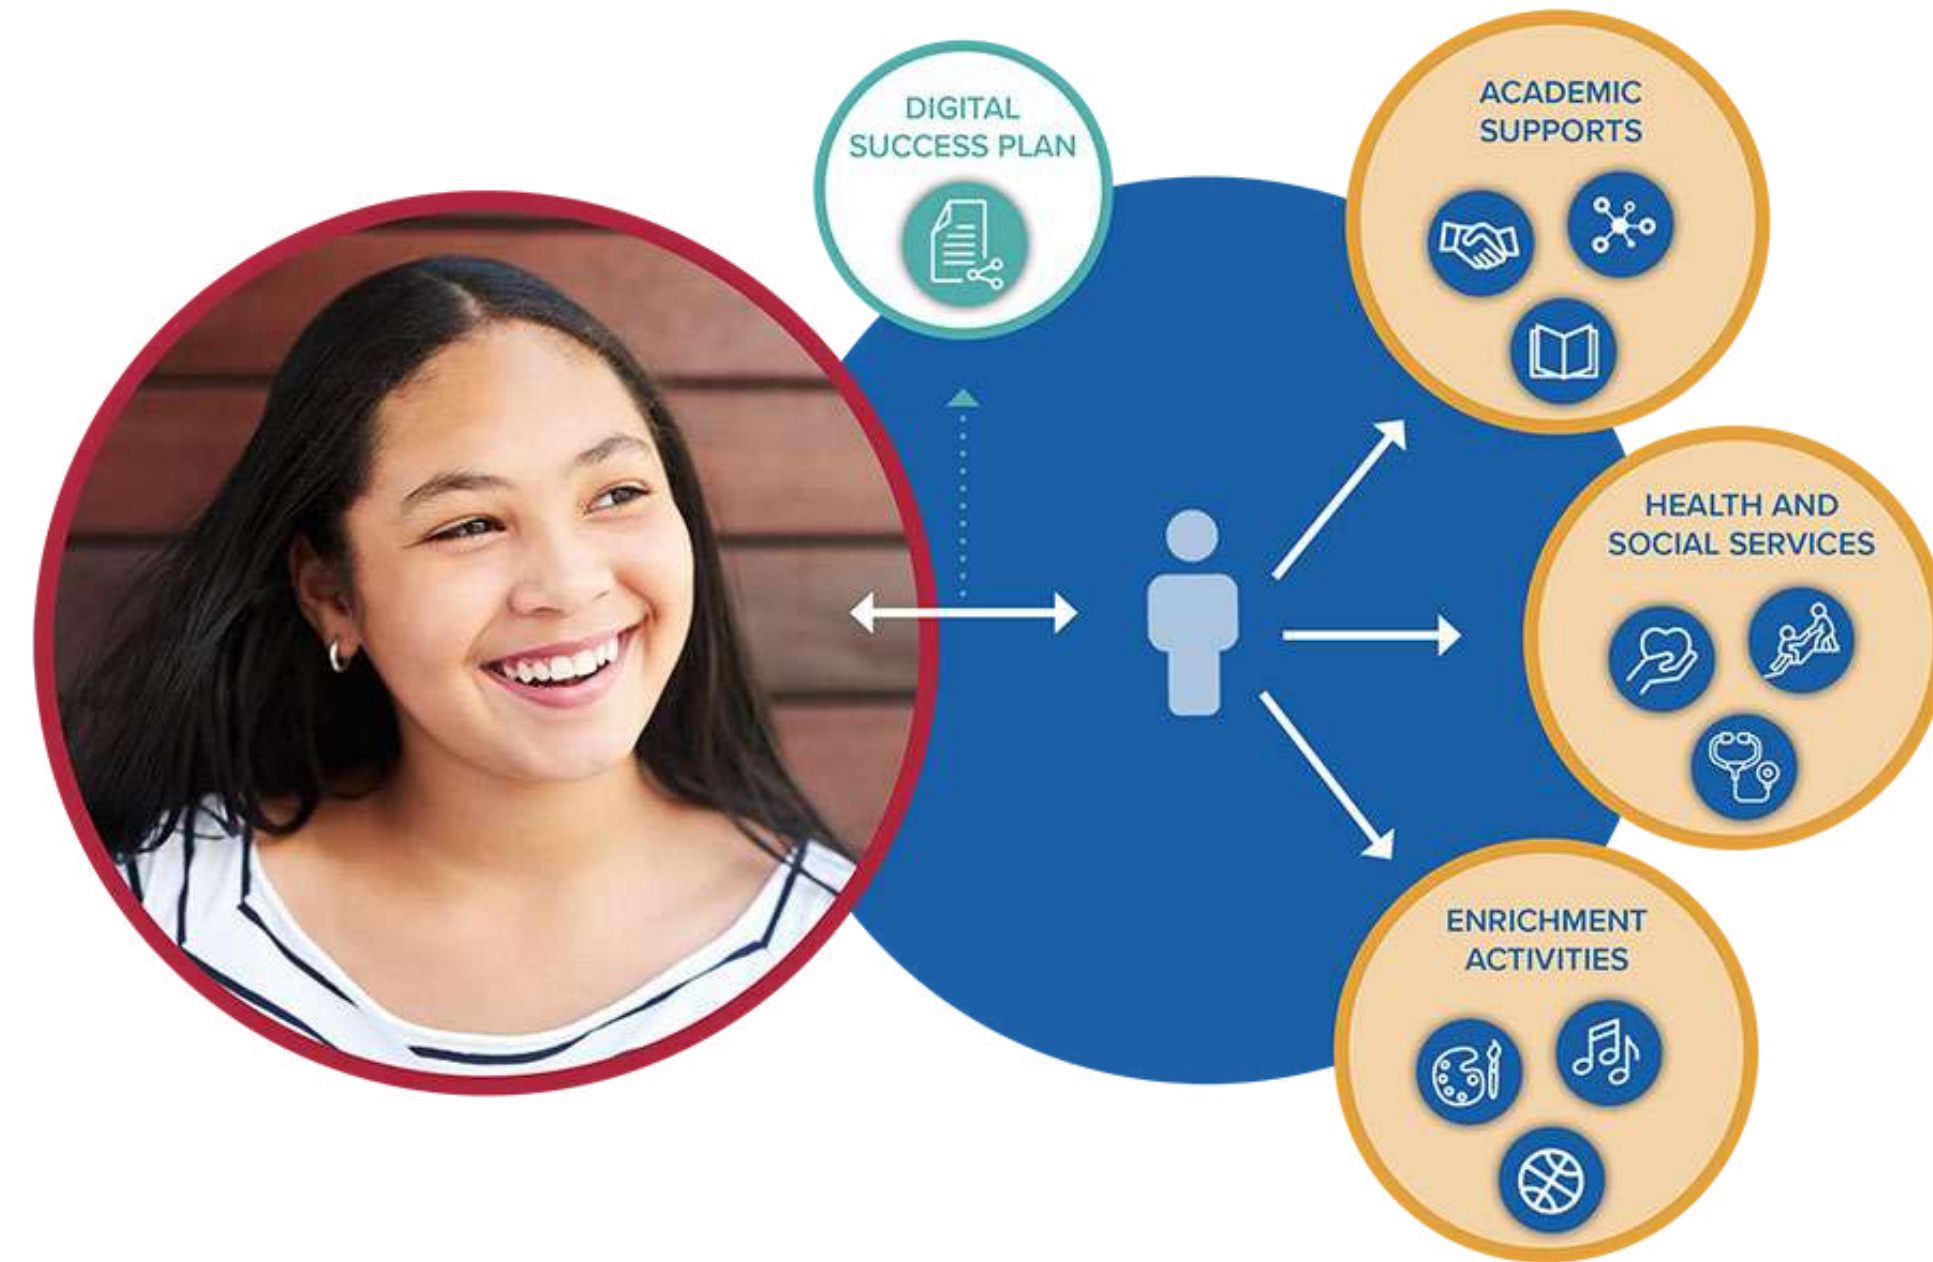

- Meet children and youth where they are and give them what they need to be successful, inside, and outside of school.
- Every child and youth should be known, seen, & heard
- A system that diagnoses children's needs and strengths, then supplies customized opportunities and supports.

Why Success Planning?

Success Planning is a Practical Approach for School and Community Leaders

- Provides 360-degree view of each child's strengths, interests, goals, and challenges
- Fosters meaningful relationships between each student and a caring adult navigator who can serve as a connector to supports and opportunities
- Ensures that these relationships and supports aren't just luck of the draw

Support and relationships are more important than ever in this moment

Maximizing Impact: Aligning Personalization and Collaborative Action Efforts

- Collaborative leadership structures, like Children's Cabinets, play a key coordination role to ensure strategic direction and the alignment of cross-sector efforts and resources within communities.
- They can help to fuel Success Planning efforts, as a vehicle to provide more personalized and relationship-based supports to meet the needs of all children and youth
- Success Planning provides critical data for decision makers and a roadmap for all cross-sector partners to clearly identify their roles and pathway to collectively realize the community-wide shared vision for all.

WHAT WE DO

We serve as a
field catalyst
to find and share
what works.

EdRedesign's Role as a Field Catalyst

- Talent Development
- Personalization (Success Planning)
- Collaborative Action (By All Means)
- Actionable Research

We Need a New Social Compact
